METAL COMPOSITE PANEL

VERSION 14.1

# OPULENT SERIES

Pioneer Panels, a trusted name in Composite Panel Sheets, proudly introduces the next phase of its surface innovation—the evolved Opulent Series. Designed for visionaries and crafted with precision, this collection reflects our ongoing pursuit of excellence, durability, and modern design.

As pioneers in panel technology, we've always believed that great design begins with great materials. The Opulent Series represents this philosophy—bringing together aesthetic finesse, engineered resilience, and architectural elegance in one refined offering.

Every new addition in this series is a result of meticulous research and thoughtful innovation. From the UV Printing White, offering flawless printability for creative expressions, to the Prismatic range with its gold-tinted depth and glossy texture, these surfaces are curated for those who demand both performance and personality.

The panels aren't just visually striking—they are crafted to meet the evolving demands of modern architecture, with features like thermal shielding and lead-free coatings. Whether you're building iconic exteriors or refined interiors, the Opulent Series brings bold ideas to life through timeless design.

This is more than a product range—it's a statement of style, strength, and sophistication.

S.R.NO.	PARTICULARS THICKNESS	PANEL THICKNESS	ALUMINIUM ALLOY	TYPE OF COATING	COATING THICKNESS TOP COIL
1	4PPR1	4MM	AA 3003/AA 3105	PVDF	25μ ± 2μ
2	3PPG	3MM	AA 3003/AA 3105	PVDF	25μ ± 2μ

SERIES

KIND TO THE  
PLANET

ENGINEERED FOR  
ENDURANCE

ARCHITECTURAL  
AESTHETICS

GRACE THAT  
NEVER FADES

THERMAL  
SHIELDING

TERMITE  
RESISTANCE

USE OF  
LEAD FREE PAINT

The color exudes the aura of nature  
and ideas of experience, growth,  
strength and security

PA201  
SQUIB BRONZE

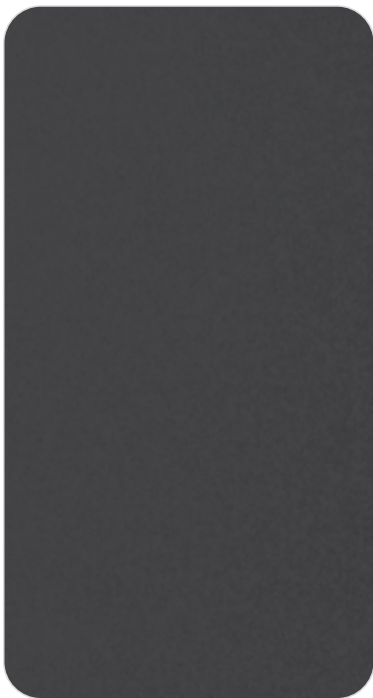

It's a smooth blend of light gold  
enamored with golden sparile. This  
color Represents sophistication,  
comfort and excitement

PA202  
PRISMATIC TOLEDO

It is a formal, classic, gothic, pious  
and respectful color. It has a  
peaceful relaxing and soothing  
presence.

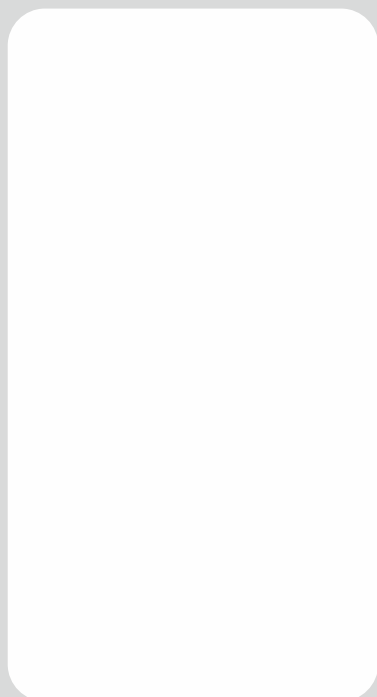

PA203  
DARK NIGHT GREY

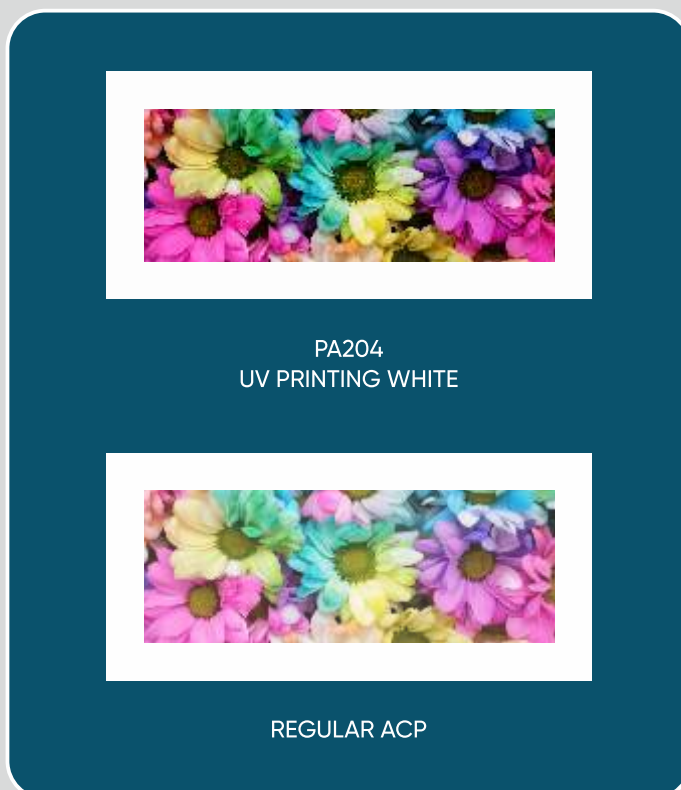

A clean slate engineered for  
creativity perfect for stunning UV  
impressions.

PA204  
UV PRINTING WHITE

#### How it's Different ?

Parameter	UV Printing ACP	Regular ACP
Surface Coating	Special coating for strong ink adhesion	Standard PE/PVDF coating
Ink Adhesion	Optimized for UV printing inks	Low adhesion, may need pre-treatment
Colour Base	White/light base for vibrant prints	Not optimized for direct printing
Print Durability	Long-lasting, weather & chemical resistant	Poor longevity without lamination
Best Use	Signage, display boards, branding panels	General construction, cladding

#### Why It's Better ?

Test / Feature	UV Printing ACP	Regular ACP
Print Quality / Gloss	High – vibrant & sharp	Low – dull finish
MEK Rub Test	Pass – strong adhesion	Fail – ink rubs off
Hot Water Test (100°C, 30 min)	Pass – no peeling/fading	May peel or fade
Oven Test (70°C, 2 hrs)	Pass – retains quality	May distort/degrade
UV Resistance (6 months)	Very High – colourfast	Low – fades/discoLOURS
