# Feather Touch

COLLECTION

True to its name, the Feather Touch Collection by Pioneer Panels offers an ultra-smooth surface finish that feels as soft as a feather to the touch. This refined range includes Aurora Hues—solid pastel shades, and Timber Hues—elegant wooden tones, combining sensory comfort with aesthetic elegance.

Pioneer Panels, a leading name in premium ACP and MCP solutions, is known for blending advanced technology with elegant design sensibilities. As part of our ongoing innovation in surface finishes, we proudly present the Feather Touch Collection—a range created not just to be seen, but to be felt. What sets this collection apart is its remarkably smooth, velvety surface finish, engineered to feel as soft as a feather. This tactile refinement adds a new sensory dimension to cladding, bringing comfort, calm, and luxury to every space it touches.

The collection includes two distinct series:

**Aurora Hues Series** – featuring gentle, solid pastel colours that bring lightness and grace to both interiors and exteriors.

**Timber Hues Series** – inspired by the natural charm of wood, these tones replicate rich wooden textures with a soft matte finish that feels as good as it looks.

Feather Touch is more than a design statement—it's an experience. With this collection, Pioneer Panels introduces a new benchmark in surface quality, where touch becomes an integral part of architectural expression.

## AURORA HUES

A soothing palette of soft pastel shades, crafted to bring calm, elegance, and a velvety-smooth finish to modern architectural spaces. Perfect for interiors and exteriors that demand subtle sophistication.

COLLECTION

Inspired by the timeless beauty of natural wood, the Timber Hues Series captures the warmth, richness, and intricate grain of real timber—reimagined in an ultra-smooth, low-maintenance surface. With shades ranging from classic teak to deep walnut, this series brings the character of handcrafted wood into contemporary spaces.

Crafted with Pioneer Panels' advanced surface technology, each panel in the Timber Hues Series offers a feather-touch finish that feels as luxurious as it looks. Designed for both interiors and exteriors, it blends nature's elegance with modern engineering—perfect for projects that seek earthy sophistication without compromising on performance.

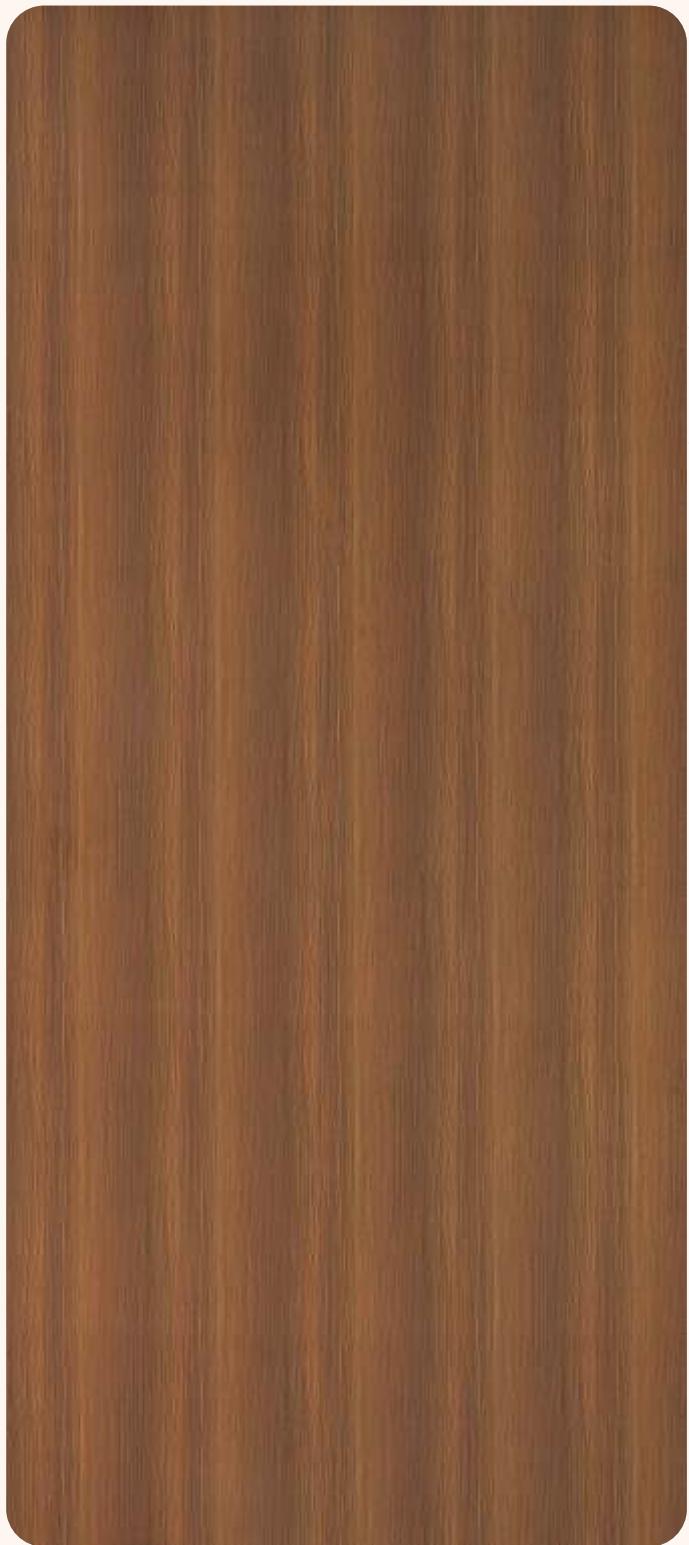

## TIMBER HUES SERIES

Where the warmth of wood meets modern innovation—Timber Hues Series brings nature's charm with a flawless, feather-smooth finish.
